GO Biological Process

-log10(Binomial p value)

Term	Value
leukocyte activation	22.04
myeloid leukocyte activation	21.52
leukocyte mediated immunity	20.52
leukocyte activation involved in immune response	19.90
immune response	19.83
cell activation	19.58
cell activation involved in immune response	19.39
immune effector process	19.25
myeloid leukocyte mediated immunity	18.47
neutrophil activation	17.60
leukocyte degranulation	17.60
myeloid cell activation involved in immune response	17.43
defense response	15.87
regulated exocytosis	13.14
I-kappaB kinase/NF-kappaB signaling	11.62
exocytosis	11.32
inflammatory response	11.17
immune response-activating signal transduction	11.04
positive regulation of cytokine production	9.48
immune response-activating cell surface receptor signaling pathway	9.27
